

**Membership Form**  
**Available now, valid April 1, 2022-March 31, 2023**

---

**Membership benefits for 2022-23**

- We have plans to have our annual conference in November. This is a huge task; therefore, a conference committee is being formed and partnerships are being pursued to hire a staff person to help with the administration of the conference. More details to follow.
- All members will be kept up to date on all local, regional, and national news in relations to the Career Development Profession through email and social media.
- A portion of the membership fees is used for our annual Phyllis Pitre Bursary. A bursary committee is now being formed.
- In 2022, we are thrilled to have 28 people now participating in 44 courses with this round of training so far and with a continuous intake. We will continue to offer a wage subsidy to those who qualify. If you or someone in your organization would like to still participate, please reach out to [cdapei.training@gmail.com](mailto:cdapei.training@gmail.com) and we'll get you registered as soon as possible. Our Chair Lisa Chaisson has been actively pursuing training opportunities for our members by working with partners provincially, regionally and nationally.
- We have a committee planning for webinars and short-term additional training. Throughout the year, this information will become available to members who wish to participate.
- We have a CDA of PEI Executive committee and a member committee which provides an open opportunity for members to be a part of growing with the association.

In addition to these exciting events, a current membership with the CDA of PEI is required to become eligible for Career Development Professional certification in New Brunswick.
