Career development is a life-long process of managing learning (formal and informal), work (paid and unpaid) and transitions in order to move towards a preferred career. It is the knowledge, skills and attitudes needed to effectively navigate education and employment choices, changes, and progressions through a person's life span.

Mission: The Career Development Association of PEI is a network of professionals, community partners, and individuals committed to providing leadership to strengthen career development initiatives on PEI.

Objectives of the Association: To influence policy, to identify leading practices, and to enhance career service delivery to all Islanders requires a coordinated effort with the right partners at the table.

CDA of PEI is integral to raising professional standards, to creating professional development opportunities, to producing evidence-based publications and research, and to disseminating timely updates to all career development members who are directly and indirectly influencing the career development of the labour force on PEI.

Career Development Professionals on PEI: The Career Development Association of PEI was established in 1999 and incorporated in 2011. Our members work with individuals in the K-12 education system, post-secondary institutions, those unemployed and underemployed, and those seeking career transition services. **CDA of PEI membership includes but is not limited to the following:**
